

Abraxas Congress Tourism

Assist with Events and Conference Organisation

The Abraxas Congress Tourism package assists with the planning and organizing of conferences or meetings and therefore saves valuable business time.

Application Abraxas Congress Tourism helps you with functions like:

Managing the list of clients and business partners. Abraxas Congress Tourism enables complete business review. This application helps you to

control a registration list and entries for competition, preparation of invoices and enables a complete financial overview. Business history can be seen at any time.

Advanced searching of your client's addresses. This application enables searching by: a code, name of a company or person, address, telephone, email, country, contact person, type of contact.

Performance can be categorized by competition categories or groups. Categories and groups are defined for classification of performance.

Pricelist of entries for competition. A pricelist can be made for every category separately.

Attendance on Event or Conference. Attendance can be entered into the system by an agent (either by

telephone or written) or by the user (logging in using an internet portal).

On-line registration can be made using online payment methods.

Analyze and control. Lists of creditors and debtors can be shown separately by projects or by performances which can also be used for statistical information about the festival. This application also enables defined analyses for users.

Complete support for official business. Lists of companies or people

Abraxas d.o.o., computer engineering and consulting company
Štrekljeva 8, 1000 Ljubljana, Slovenia
Phone number: 00386 1 421 93 70,
Fax: 00386 421 37 41,
E-mail: info@abraxas.si

can be managed by this application. In addition to this the application can prepare and print documents such as invoices and prepare data for exporting in relation to booking details.

Support for main office of event before performance. The application prepares lists of people who are attending the event, prepares data for catalogues, jury etc...

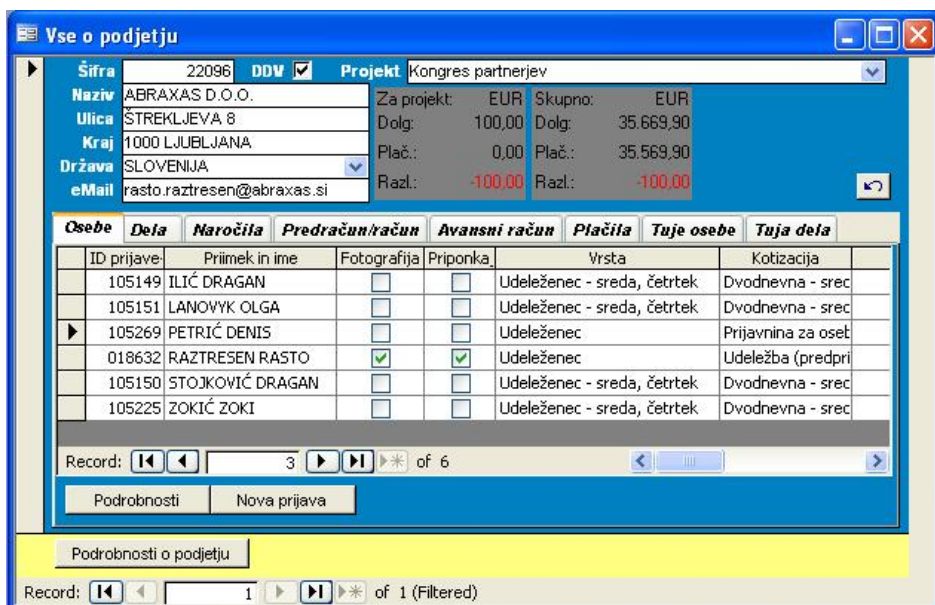

Support for main office of festival during performance. The system will keep details of people present at events, list of inventory, support to enable printing of labels, support for bar codes.

Making system for emailing. The system has an optional use of reporting and sending news relating to your business.

Voting, endorsing and estimation are available during the voting. Abraxas Voting program helps you to undertake voting, endorsing and estimation of competitors and their work. The voting system is a central server and mobile voting units with touch screen. The voter places their vote by using the touch screen and selects a suitable answer or defines a number of points. The system handles the results of voting and sends data to Abraxas

Congress Tourism enabling a report to be produced and can prepare data for publication. The system can also be used for controlling attendance ensuring a representative sample of individuals.
